

## **Chris Combs joins ZAP Engineering & Construction Services, INC. as Vice President – Gulf Coast Engineering**

**January 31<sup>st</sup>, 2022**

ZAP Engineering & Construction Services, INC is pleased to announce that Chris Combs is now our Vice President – Gulf Coast Engineering. Chris joins ZAP after establishing himself as a trusted engineering service provider within the Midstream Oil & Gas industry. Chris has significant experience with the transportation, metering, and storage of NGL, LPG, LNG and other liquid petroleum products. From his time as a Project Manager, leading engineering and Engineer-Procure-Construct projects, to leading a multi-disciplined engineering team, Chris has the background, experience, and leadership skills to lead our new Gulf Coast engineering team, which is based in Houston Texas.

After various introductory positions in the Oil & Gas Industry, ranging from pipe fitting to design manager, beginning in 1999, Chris began his career in 2005 as a Project Manager for a multi-disciplined engineering company. Throughout his twelve years as a Project Manager, Chris took on progressively larger, more complex projects, including leading turnkey Engineer-Procure-Construct projects. Chris then moved on to work for a General Contractor, working to build an engineering team to support the engineering services for EPC efforts, while continuing to support clients with engineering projects. Chris joins ZAP to support our continued efforts to grow and diversify, and most importantly support our clients to ensure successful projects.
